

# Imaging Made Easy

## Prepayment Guarantee for Outpatient Imaging

**To schedule a test or for more information, please call 855-724-3384.**

### Qualifications and Limitations:

- Prepayment must be made on or before the date of your service.
- Prepayment includes technical/facility fee for outpatient diagnostic CT, MRI, ultrasound (including vascular, echocardiogram and breast ultrasound), PET and nuclear medicine, including any contrast.
- Prepayment does NOT include any related professional/physician fees, imaging services that are part of a more complex service (e.g. inpatient stays, same-day surgery, ED or Observation services, etc.), scans that must be combined with more complex services due to payer bundling rules, and any other services provided on the same day.
- Prepayment is an essential element of the program so the discount cannot be applied retroactively to past services.
- The Prepayment Guarantee cannot be used to circumvent your insurance plan's pre-authorization or network rules.

We know it can be difficult to pay medical bills on top of day-to-day expenses, and we do not want this to be a barrier to receiving high-quality care. Valley Health offers a Prepayment Guarantee Discount for outpatient CT, MRI, ultrasound (including vascular, echocardiogram and breast ultrasound), PET and nuclear medicine. This program is available at all Valley Health hospitals, Valley Health Medical Imaging | Spring Mills, Winchester Imaging and Valley Health Advanced MRI for our uninsured and privately (commercial) insured patients.

If payment is received at the time of service, patients will pay no more than the following amount per test:

- \$300 for ultrasound (including vascular, echocardiogram and breast ultrasound)
- \$900 for PET
- \$500 for nuclear medicine
- \$500 for CT or MRI

### Financing Options

If you are not able to take advantage of the Prepayment Guarantee, Valley Health will work with you to find the best financing option for you. We offer a general 10% prepayment discount (excludes copays) for most pre-paid services not already covered by the Prepayment Guarantee, as well as various payment plan options. For those who qualify, financial assistance is available to help you afford your medically necessary care. Please ask about financing options when scheduling your services.

*Healthier, together.*
