

## Patient Portal Access

Patient Portal Access is the all-in-one personal health record and patient portal that lets you access your health information. You will have 24/7 online access from any computer, smartphone, or tablet. You will be able to view test and lab results, send and receive secure online messages, request Rx refills, cancel appointments, and receive email care reminders. You can also download the free portal app at your Apple or Android store (enter MyHealthRecord.com in the search field).

Complete this form in its entirety and you will then receive an email from My Health Record with instructions on setting up your personal Patient Portal Access account. You must register your new account from a computer only, you cannot create an account on a tablet or smartphone. After your account is created, you will be able to access your account from any device (computer, smartphone, or tablet). **Please complete this form if you have a valid email address, as we cannot submit your request without it.**
